

SEASKY

MEDIFIX

MediFix is an AI powered voice assistant that can help you with providing preventive measures based on your symptoms.

TRY IT!

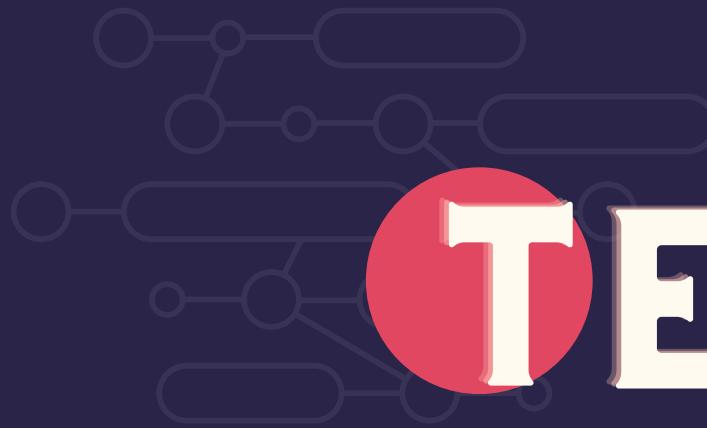

"Explore and enthuse yourself with the awesomeness of AI"

Gayatri

"Predicting the future isn't magic, it's artificial intelligence."

TEAM

Srinadh

"Come on! Let's teach machines!"

Objectives

Technology

- GPT3, GPT 3.5
- STREAMLIT
- PYTHON
- GTTS
- BYTESIO
- WAVIO
- WHISPER

Idea

Building an AI Powered assistant that can help people in their medical emergencies by providing preventive measures to make them healthy and fit.

Features

01

Accurate

It generates accurate preventive measures for the prompt provided by User. Takes optimal time to generate descriptions.

02

Support

Input can be provided according to the user convenience be it voice or text.

03

Lucid Interface

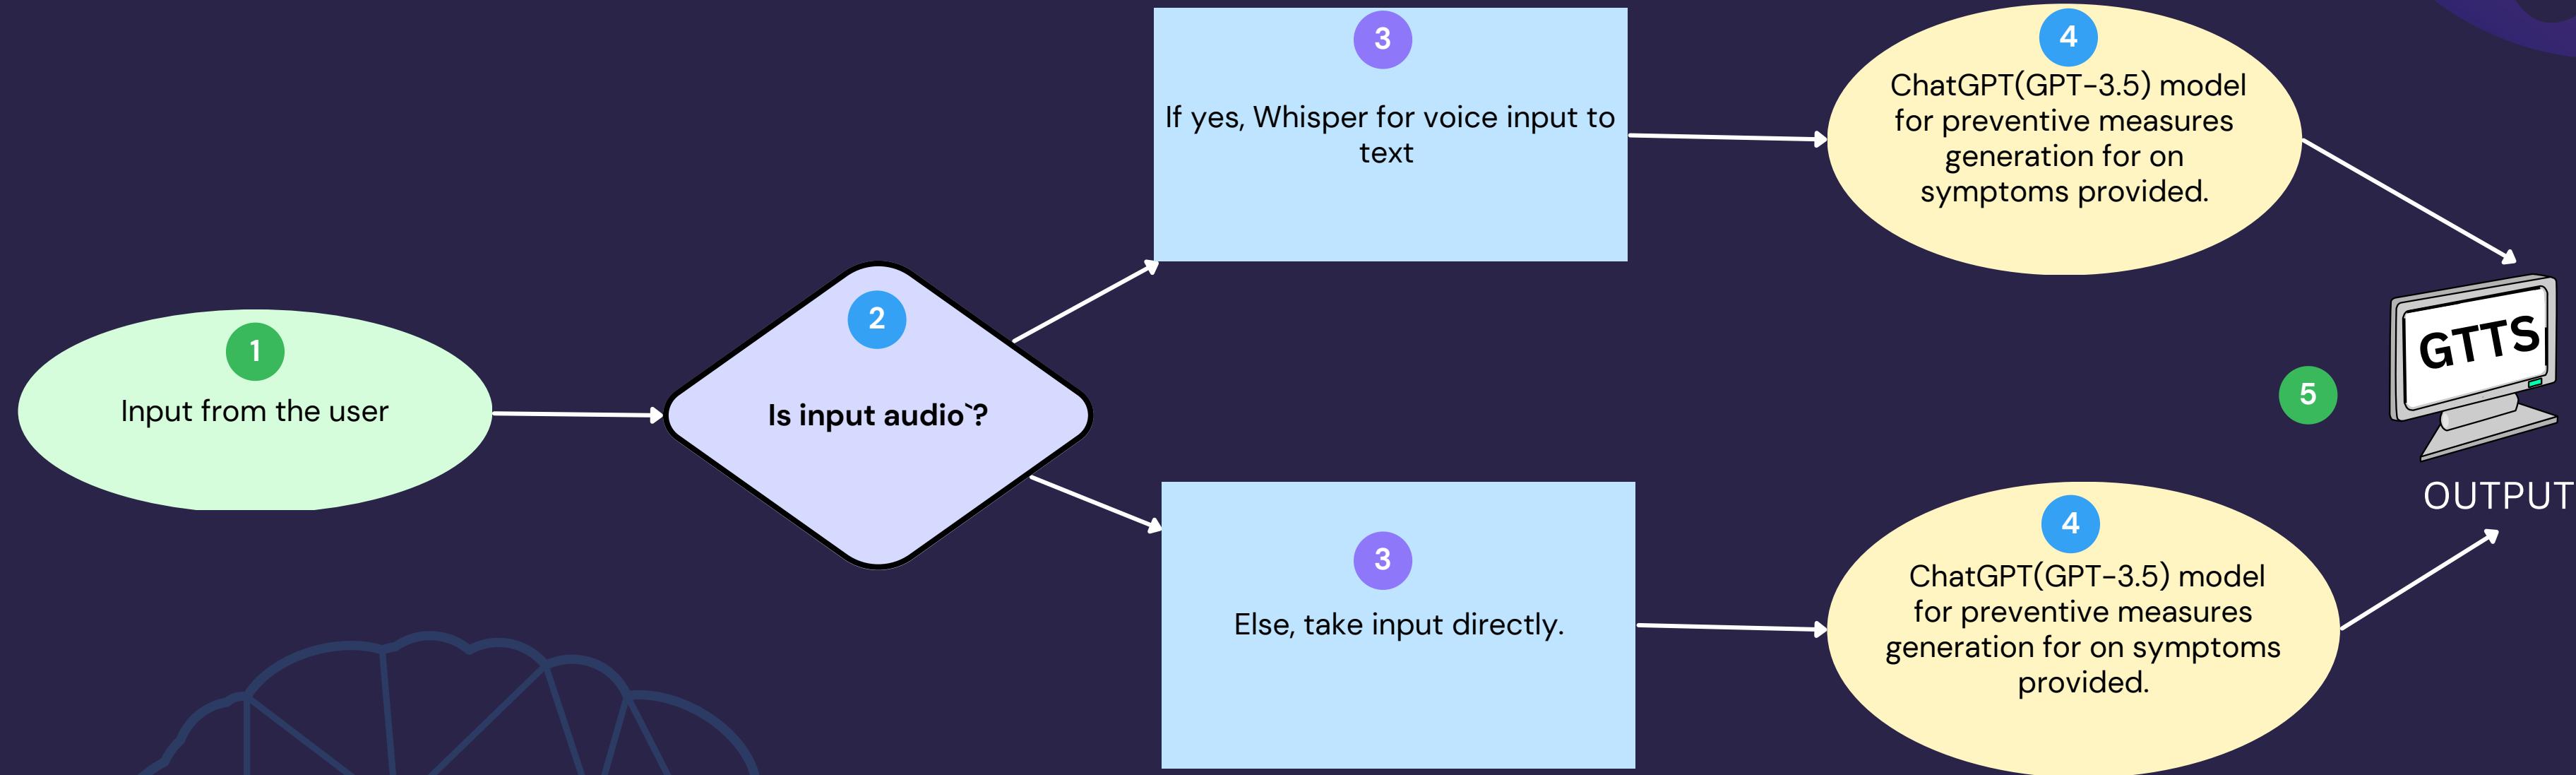

Interface is so simple and can be utilised by anyone easily with minimal effort.

04

Human-like language generation

It can provide preventive measures almost like a human physician (AI - POWERED)

Let's visualize our current process and build the process flowchart.

SEASKY

Interface

MEDIFIX

Hi, I'm MediFix, powered with AI. I'm here to help you with your health issues. I can help you with your symptoms and tell you the preventive measures to take. I can listen to you and I can also read your symptoms. So, let's get started.

Which input form would you like

Text

Enter the symptoms

Generate the preventive measures
